

NOTICE OF PRICE INCREASE

Effective March 1st, 2024

To our valued distributors,

Over the last two years, CanadaGoGreen has experienced significant increases in manufacturing costs, driven by factors such as rising raw materials and freight expenses. While we have strived to absorb these costs, we find it necessary to make an adjustment to our 4 SEASONS Solar Powered Vents pricing, ranging from 3% to 6%, along with a few key changes detailed below:

- **Pre-paid shipping:** This applies exclusively to full product pallet orders.
- **Minimum order:** For orders below \$3000 in products, a small order price list is available upon request.
- **Pallet quantity:** The full pallet quantity of the 4 Seasons PRO has been increased from 36 to 40 pieces.

Please see attached our updated price list for your reference.

We sincerely appreciate your support and continued business.

Feel free to reach out via phone or email any time if there are any questions or concerns.

Best regards,

Martin Gorlero
President
